

Dear Carlovers, Petrolheads and Friends of FioriConcorso,

the coming working week will be short, not only because many countries have Monday as a public holiday, but also because the next weekend will be started early with the highlight for carguys and carlovers, anyone not staying in Monaco will be traveling to Como for the Concorso d`Eleganza Villa d`Este and the even more spectacular reason: FuoriConcorso

<https://www.fuoriconcorso.org/>

Created by Guglielmo Miani in 2019, the FuoriConcorso event is held on Saturday 25 and Sunday 26th of May in the gardens of Villa Grumello and Villa Sucota, two glamorous estates overlooking Lake Como and the surrounding mountains. Every year, the special exhibition highlights a different aspect of automotive history and creativity with a line-up of iconic, rare and previously unseen custom cars and prototypes.

This year the event will honour Britain's vibrant and fascinating racing history with an array of British racing cars, finished in both 'BRG' and other shades. Displayed on the lush grounds of the Villa del Grumello and Villa Sucota, attendees can expect to be blown away by the contrast between jaw-dropping coachwork and the glittering backdrop of Lago di Como.

And in keeping with the jewels of automobile history, I have the pleasure of presenting a selection of my automobile photographs at Villa Sucota, a few classics but also some very special ones, curated for this occasion and presented here for the first time on three floors in this special setting. The exhibition will be on display in the west wing of the Villa Sucota and there will also be the opportunity to purchase and have the pictures signed in the form of my books as well as the partly large-format FineArt prints and the framed exhibits.

More information about travel and parking and the entire ticketing system can be found here on the website:
